NAPONSKI MJERNI TRANSFORMATORI

Koriste se za prilagodbu primarnog napona mjernim i zaštitnim uređajima kao i za galvansko odvajanje krugova.
Izrađujemo ih u skladu sa IEC 60044-2 DIN/VDE 0414-2 i drugim ugovorenim standardima.

Detaljnije...

VOLTAGES MEASURING TRANSFOMERS

The voltage transformers are used to transform primary voltage to a lower value requested by the metering and protection devices.
These transformers are produced in compilance with IEC 60044-2

Details...

NAPONSKI MJERNI TRANSFORMATORI
VOLTAGES MEASURING TRANSFOMERS
TIP / TYPE **VTM**

Jednopolno izolirani transformatori -pole Single insulated transformers	**Dvopolno izolirani transformatori Double-pole insulated transformers**

Jednopolno izolirani transformatori
Single-pole insulated transformers

Dvopolno izolirani transformatori
Double-pole insulated transformers

Shema spajanja transformatora
za fazu-nulu i sekundarni napon 100 $\sqrt{3}$ V

Shema spajanja transformatora
za fazu-fazu i sekundarni napon 100 V

Shema spajanja transformatora za fazu-nulu i sekundarni napon 100 / $\sqrt{3}$ V

This diagram refers to the transform. for phase-neutral insertion and secondary voltage 100 / $\sqrt{3}$ V

Shema spajanja transformatora za fazu-fazu i sekundarni napon 100 V

This diagram refers to the transform. for
phase-phase insertion and secondary voltage 100 V

nazivni primarni napon rated primary voltage	nazivni sekundarni napon rated secondary voltage
110 / 100 / $\sqrt{3}$ V	
230 / $\sqrt{3}$ V	100 / $\sqrt{3}$ V
400 / 440 / $\sqrt{3}$ V	110 / $\sqrt{3}$ V
600 / $\sqrt{3}$ V	

nazivni primarni napon rated primary voltage	nazivni sekundarni napon rated secondary voltage
100 / 110 V	
230 V	100 V
400 / 440 V	110 V
600 V	

druge vrijednosti primarnog i sekundarnog napona prema vašem zahtjevu
other value of primary and secondary voltage according to your request
