Pool lighting in stainless steel

Underwater lighting is not only attractive in a swimming pool, but also provides a safety factor for night time bathing. All lighting units are manufactured from high quality material, acid-proof stainless steel AISI 316, and are supplied with a 2,5 m long 2-wire connection cable, which is connected to the lamp unit via a watertight bush. Lamp changing can easily be accomplished without the need for draining the pool water thanks to the long connecting cable. Lamp type: PAR 56, 12V, 300W, Sealbeam, i.e. lamp, glass and reflector are in a sealed unit.

Recommended lighting:

300W	For outdoor pools - 1 light unit per 25 m^2, for indoor pools - 1 light unit per 15 m^2.
25W LED	For outdoor pools - 1 light unit per 12 m^2, for indoor pools - 1 light unit per 7 m^2.

12250

Lighting unit 300, 300W, 12V, IP68

Item no.
