

**Ingredients:**

Contains 5-15% non-ionic surfactants, less than 5% soap, preservative. Other ingredients: complexing agent. pH approx. 10.

**Activity:**

Easily and quickly dissolves even stubborn dirt and stains. Particularly suitable for removing rubber scuff marks, greasy and oily dirt. Even when used for long periods, it does not produce an unpleasant odor. Does not make surfaces slippery. Also ideal for use in machines with a recycling action. Kind to surfaces. As it does not contain harsh chemicals, it does not attack sensitive metallic parts, paint or plastics. Contains no hydrocarbons, no phosphates, no NTA or EDTA. Low-foaming.

**Range of application:**

Suitable for all watertight, solvent and alkali-resistant floors in workshops as well as premises with oily, greasy and coarse dirt. Can be worked with all kinds of cleaning machines and in high-pressure equipment.

**Directions for use:**

2% (1 liter to 50 liters water) for normal soiling. For heavy soiling, use a higher concentration (e.g. 5% = 1 liter to 20 liters water). When using the product in the vicinity of foodstuffs, thoroughly rinse off with water.

**Environmental aspects:**

This product is subject to the Law on the Environmental Compatibility of Washing and Cleaning Agents and the attached implementing regulations on the biological degradability of raw materials. Comprehensive information about the environmental behavior of this product is available on request. Make sure the pack is completely empty of residues before disposal.

This product is intended for industrial and commercial use.
