Full-Size 2.2 Cu. Ft. Microwave Oven with Inverter Turbo Defrost, 18 Sensor One-T Cook Modes and Multi-Lingual Menu Act Screen, Stainless

+ Larger Views

Overview

Technical Specs

Inverter Turbo Defrost Adds a Little Cooking Boost

Panasonic has succeeded in evolving Turbo Defrost™, which allows you to defrost foods even faster than previous Panasonic Auto Defrost. Panasonic Inverter Turbo Defrost technology is an advanced microwave sequencing system using the Inverter low-power delivery feature. It was developed on the basis of what scientists call "Chaos Theory." This design makes it possible to distribute microwave energy with the most appropriate combination of regularity and irregularity.

Our Keep Warm and Simmer Features Help You Keep Your Food Warm Until You're Ready to Eat

A pulsing delivery of very low microwave power keeps the temperature of your food at a constant level without overcooking. Our improved keep-warm menu now includes five items, so food like stew, gravy and desserts can stay warm in the oven until you're ready to serve.

Reheating and Cooking Made Simple

One-Touch Sensor Cooking adjusts power levels and calculates cooking times automatically, making reheating and cooking a variety of foods easier than ever.

Need Another Minute? Use the Quick Minute Feature

Set cooking times in one-minute intervals, or add a minute to a current cooking session.

Enjoy Great-Tasting Popcorn

Pop a bag of prepackaged microwave popcorn at the push of a button.

FACTS SHEET

ZWF16070S

IN A NUTSHELL...

6kg Essential washing machine 1600rpm

HOW LIFE GETS EASIER...

- From 1000rpm to 1600rpm, Zanussi-Electrolux offers a range of spin speeds.
- No compromises even in the number of programmes. You can choose between 21 programmes and we know you won't need anymore!
- For a more convenient and economic wash, Delay Start is now available in Essential washing machines and washer dryers.

PRODUCT SPEC'S

Colour	Silver
Product Class	Washing Machine
Product Installation	Free-standing
Max Spin Speed	1600
Washing Technology	Eco valve with 3 rinses
SOP_Product_Code	ZWF16070S
Product Code	914 521 430
Bar Code	8009279040696
Load Capacity kg (Wash)	6
Front Door	Big porthole

FEATURES

6kg wash capacity

A genuine 6kg wash capacity means that you wash and dry less often saving you time, energy, water and hassle.

Advanced yet simple to use electronic controls

Whether push button or dial operated we put a host of programmes at your fingertips. Programming your Zanussi machine is as easy as One, Two, Three. 1) Turn the machine on. 2) Select the fabric type. 3) Press 'start' then sit back and relax. The machine automatically works out the best programme for the fabric type.

Quick wash

Ideal if you want to wash smaller lightly soiled loads on a regular basis, Quick Wash cleans a 3kg load in almost half the time of a 5kg load on Cotton 60°C (for XC machines). It also does it using less energy and with an 'A' rating for wash performance.

Unique Night Wash programme

Night Wash has no spin phases during rinses for an extremely low noise level during the entire cycle. This makes it ideal for washing

during the night and for taking advantage of lower rate electricity costs. The programme also has rinse hold at the end of the cycle leaving you to start the spin cycle in the morning to finish your wash. Night Wash is 'A' rated for both energy and wash performance.
