

ЕЛЕКТРОЛУКС Electrolux

What We Do in Electrolux Macedonia

Electrolux Palenzo is producing electrical tubular heating elements and similar products since 1984.

The Quality Assurance System of the Company has been certified as conforming to the standard since 1995.

Electrolux Palenzo is the pioneering Macedonian Company in its field and is continuously investing in new technologies and latest generation machines. Through tightly controlled production processes the company can guarantee the supply of ultra modern products. All products are designed, produced and controlled according to the relevant European standards and comply with the CE directives.

Situated in Mal Pariz , a northern suburb of Bitola , the company is easily accessible:

- From the NATIONAL ROAD highway, direction from Bitola to Mal Pariz , on the 2st km is found the exit to Bitola . The company is based 1 km away from this exit.
- From the "Apostol Pavle " Ohrid international airport, driving through the Ohrid freeway until the exit to the NATIONAL ROAD highway is reached. Taking the direction from Bitola to Mal Pariz the exit to NATIONAL ROAD is met.

Electrolux Palenzo over the last years is developing a decent export profile. The company is working together with the customers worldwide, in order to develop attractive and reliable products. Strong relationships have been built based on mutual trust and respect.
