

iRobot Dirt Dog®

Shop Sweeping Robot

Dirt Dog is the smart, sweeping robot that navigates throughout workshops, garages, patios and decks picking up woodchips, nuts, bolts, dirt and other heavy duty debris so you don't have to. High-speed, counter-rotating brushes grab debris from industrial floor surfaces and capture it in an oversized, bagless bin. When the bin is full, simply snap it out, dump the debris in the trash and snap it back into the robot -- then recharge Dirt Dog for the cleaning next job.

STANDARD FEATURES

iRobot AWARE™ Intelligence System
21.9" W x 4.17" H
