iRobot Roomba® 410

Vacuum Cleaning Robot

The iRobot Roomba is an intelligent and effective vacuuming robot that cleans floors routinely so you don't have to. Roomba's powerful vacuum and counter-rotating brushes lift dirt, dust and debris from carpets and automatically adjust from carpets to hard floor surfaces.

STANDARD FEATURES

Dirt Detect, Stair Avoidance System, Surface Transitioning, and Bag-less Debris Bin

ADDITIONAL FEATURES

Two Cleaning Modes: Clean and Spot

In Clean Mode, Roomba automatically calculates the room size and adjusts its cleaning time appropriately. In Spot Mode, Roomba will spiral approximately three feet in diameter, intensely cleaning a localized area.

1800 mAh NiCD Battery

APS Fast Charger. Fully charges Roomba in less than three hours.

1 Virtual Wall Unit. Uses an infrared beam to create a barrier so Roomba cleans where you want.

NEW iRobot Roomba® 562 Pet Series

Vacuum Cleaning Robot

Roomba Pet Series Vacuum Cleaning Robots are designed especially for the hairy situations that pet owners face. The Roomba 562 systematically cleans four rooms on a single charge and gets into hard-to-reach areas like wall edges and beneath furniture while avoiding stairs and other drop-offs. Roomba automatically adjusts from carpets to hard floors and back again. Virtual Wall® Lighthouses (2) direct Roomba to completely vacuum one room before sending it to the next room or block Roomba from entering off-limit areas. When the cleaning is complete, or if the battery is running low, Roomba returns to its Home Base® to dock and recharge. Two interchangeable cleaning bins - a Vacuuming Bin and a High Capacity Sweeper Bin - provide the option for everyday vacuuming or heavy duty cleaning

in hairier, dirtier, high-traffic areas. A Replacement Brush Kit - an extra Bristle Brush and an extra Beater Brush - allows for easy replacement and cleaning of the brushes. Using clean, hair-free brushes ensures that Roomba always cleans at peak performance. Simply remove the dirty brushes, snap in the clean ones and let Roomba go to work then clean the dirty ones at your leisure. Two brush cleaning tools - a new and improved cylindrical tool and a bladed comb - provide fast and efficient removal of hair and debris from Roomba's brushes. Two replacement filters help trap dirt, dust and dander inside the robot.

Standard Features

- Efficiently vacuums dirt, debris, pet hair, dust, allergens and more from carpets and hard floors
- Counter rotating Bristle Brush and Beater Brush work together like a dustpan and broom

- Cleans the whole floor, under and around furniture, into corners and along wall edges
- Detects dirtier areas and spends more time cleaning them
- Spot Clean provides quick clean-up of spills and concentrated messes
- Automatically senses and avoids stairs and other drop-offs
- Simple operation—just press the Clean button and Roomba does the rest

Advanced Features

- Cleans on schedule. Preset up to seven cleaning times per week for Roomba to automatically vacuum wherever and whenever you want
- Virtual Wall Lighthouses (2) create invisible barriers that block Roomba from entering off-limit areas or direct Roomba to completely vacuum one room before sending it to the next room

- Automatically returns to its self-charging Home Base to dock and recharge between cleanings
- Two interchangeable cleaning bins:
 - High Capacity Sweeper Bin - an oversized sweeping bin that holds three times more debris than the vacuuming bin and is ideal for use in larger spaces and dirtier, high-traffic areas.
 - Vacuuming Debris Bin - a powerful and efficient vacuum lifts dirt, dust, crumbs and debris. Ideal for routine maintenance of all floors and cleaning deep into carpet and rug fibers.
