

Dometic. The Satisfaction Network.

Dometic Design miniBars

Style and function at its best.

 **Dometic** The Sign of Comfort

■ Dometic The Satisfaction Network

AT DOMETIC, we perceive ourselves as system suppliers and experts in professional In-Room marketing, which is essential to satisfy your guests. Our far-stretched service network covers more than 180 countries and offers personal support on all continents. Experts ensure competent on-site advice and comprehensive after-sales support.

THIS IS HOW DOMETIC achieves maximum satisfaction on either side – be it hotel owners, hotel managers or your guests. And it explains why hotel managers all over the world consider Dometic as their partner of choice. Dometic is undeniably the No. 1 with more than 4 millions installed miniBars world-wide. It has a lot to do with our expertise, accumulated in the 8 decades following our inventing the absorption technology. You can sense it, but you can't copy it.

■ Dometic Design miniBars

A DOMETIC MINIBAR belongs to the standard of leading hotels, no matter how many stars it has. And while the extreme comfort and advanced technology of our miniBars ensures fully satisfied guests, our special design models add a very enticing appearance.

■ Modern design

The discerning eye is absolutely pleased with the perfect harmony of form and function, design and handling.

■ Entirely noiseless operation

Apart from the fact that Dometic's absorption technology is most eco-friendly, it also respects your guests' need for peace and quiet.

■ Controlled performance

The unique, sensor-controlled cooling unit (CUC System) ensures perfect cooling performance with any Dometic miniBar.

■ Fuzzy Logic Energy Control

Our patented Fuzzy Logic control software ensures the lowest possible energy and operating costs when using absorption-type miniBars. Independent tests of the energy consumption have proven that

a Dometic miniBar considerably cuts your energy expenses, even compared to other absorption-type models. Depending on the number of units, you can easily save thousands of Euro per year.*

■ Everything to protect the environment

Dometic miniBars are free of CFCs and HCFCs. Just as important: Only Dometic factories are certified as per ISO 9001 and ISO 14001/EMAS, which guarantees both top quality and ecological compatibility.

■ No need for a maintenance contract

Dometic miniBars are maintenance-free and immune to the usual wear and tear, so they do not create any problem for your in-house maintenance department.

*Depending on the number of miniBars used in your hotel

■ Dometic miniBar 456 LD/LDE

This trendsetting design has won many awards. Capacity: 56 litres (incl. non-cooled 16 litre compartment). For built-in or free-standing use. Curved door with an acrylic glass front. Illuminated unrefrigerated compartment. Door opening indicator. Numerous options for door decor panels in the case of project orders. Sensor-controlled LED interior light. Fuzzy Logic Energy Control. Unique, sensor-controlled surveillance of the cooling unit (CUC system). Automatic defrost.

■ RH 456 LD [Free-standing miniBar]

| | | | |
|---------------------------|-----|--|----------------------------------|
| Capacity (litres) | 56 | Dimensions (H x W x D in mm) | |
| - of which refrigerated | 40 | RH 456 LD | 721 x 450 x 505 |
| - of which unrefrigerated | 16 | RH 456 LDE | 658 x 450 x 503 |
| Average input | | Doorhang convertible left/right | yes, upon request |
| (Watt) | 52 | Shelves | 1 |
| Consumption | | Racks at inner door | 3 |
| (kWh/24h) | 0,9 | - for miniature bottles | 2 |
| | | - for bottles and cans | 1 |
| | | Special feature | Door decor panel interchangeable |

■ Reduced energy consumption means higher profits

DOMETIC ALWAYS COMES OUT TOP! Minimum energy consumption, lowest costs for absorption-type miniBars. Independently tested and certified. Put us to the test and compare those technical data in catalogues that refer to ISO 7371: Dometic absorption-type miniBars always score the highest.

| | Dometic miniBar RH 455 LD | Competitor product |
|--|---------------------------|--------------------|
| Calculated energy use per day/per unit | 0,8 kWh | 1,55 kWh |
| Energy costs per year with the operation of at least 100 miniBars (Basis 0.10 €/kWh/day) | 2.920 € | 5.657 € |
| Energy costs after 10 years | 29.200 | 56.570 € |

■ Dometic miniBar RH 455 LD

MiniBar on wheels for free-standing use. 55 litre capacity (35 litres refrigerated). Sensor-controlled LED interior light. Fuzzy Logic Energy Control. Automatic defrost. Unique, sensor-controlled surveillance of the cooling unit (CUC system). Comes standard with a "Westphalia" beech trim (almost every colour available in the case of project orders). Door fitted with a snap lock. Adjustable inner door configuration with 3 racks (two for miniatures, one for large bottles). Door opening indicator. Compartment for glasses, snacks and non cooled drinks. Installation of a Dometic miniSafe possible (SV 160 or SKE 160).

| | | | |
|------------------------------|-----|--|------------------------------|
| Capacity (litres) | 55 | Dimensions (H x W x D in mm) | 780 x 420 x 445 |
| - of which refrigerated | 35 | Doorhang convertible left/right | no* |
| - of which unrefrigerated | 20 | Shelves | 1 |
| Average input (Watt) | 52 | Racks at inner door | 3 |
| Consumption (kWh/24h) | 0,8 | - for miniature bottles | 2 |
| | | - for bottles and cans | 1 |
| | | Special features | Red-dot door opening control |

* For project orders, also available with left-hand hinges.

■ RH 455 LD [Free-standing miniBar on wheels]

The practical red-dot door opening control shows whether the miniBar has been opened. You'll see at first glance if it's necessary to check and refill.

Opt for more variety. If you place a project order, you can get the decor that perfectly matches your furnishing concept.

■ Dometic SilverGiant

The designer miniBar on wheels for flexible use, e.g. free-standing, 90 litres capacity (40 litres cooled). Sensor-controlled LED interior light. Fuzzy Logic Energy Control. Unique, sensor-controlled surveillance of the cooling unit (CUC system). Automatic defrost. Variable interior door configuration. Large compartment for glasses, snacks and non-cooled drinks.

| | | | |
|------------------------------|-----|--|-----------------|
| Capacity (litres) | 90 | Dimensions (H x W x D in mm) | 975 x 415 x 470 |
| - of which refrigerated | 40 | Doorhang convertible left/right | no |
| - of which unrefrigerated | 50 | Shelves | 2 |
| Average input (Watt) | 52 | Racks at inner door | 2 |
| Consumption (kWh/24h) | 0,9 | - for miniature bottles | 1 |
| | | - for bottles and cans | 1 |

Dometic SilverGiant [Free-standing miniBar on wheels]

■ Dometic BlackBox [Free-standing miniBar on wheels]

■ Dometic BlackBox

Functional perfection in a contemporary design: the 40 litre miniBar on wheels. Sensor-controlled LED interior light. 2 shelves and 2 interior door racks. Fuzzy Logic Energy Control. Unique, sensor-controlled surveillance of the cooling unit (CUC system). Automatic defrost.

| | | | |
|------------------------------|-----|--|-----------------|
| Capacity (litres) | 40 | Dimensions (H x W x D in mm) | 640 x 415 x 470 |
| - of which refrigerated | 40 | Doorhang convertible left/right | no |
| - of which unrefrigerated | - | Shelves | 2 |
| Average input (Watt) | 52 | Racks at inner door | 2 |
| Consumption (kWh/24h) | 0,9 | - for miniature bottles | 1 |
| | | - for bottles and cans | 1 |

■ Dometic miniBar RH 440 LDG

This appealing 40 litre model with glass door heightens the standard of comfort in any room. Sensor-controlled interior lights are activated when door is opened. 2 shelves. Fuzzy Logic Energy Control. Unique, sensor-controlled monitoring of cooling unit (CUC system). Automatic defrost.

| | | | |
|---------------------------------|-----|--|---|
| Capacity (litres) | 40 | Dimensions (H x W x D in mm) | 554 x 401 x 446 |
| - of which refrigerated | 40 | Doorhang convertible left/right | yes |
| - of which unrefrigerated | - | Shelves | 2 |
| Average input (Watt) | 52 | Special features | Available extras: door lock and red-dot door opening control |
| Consumption (kWh/24h) | 1,1 | | |

■ RH 440 LDG [Built-in or free-standing miniBar]

■ RH 440 LDG [Built-in or free-standing miniBar]

■ Dometic miniBar RH 461 LDG

60 litre capacity. For built-in or free-standing use. The glass door stretches from corner to corner, which allows to seductively present the content. Sensor-controlled LED interior light, activated when door is opened. Fuzzy Logic Energy Control. Unique, sensor-controlled monitoring of cooling unit (CUC system). Automatic defrost.

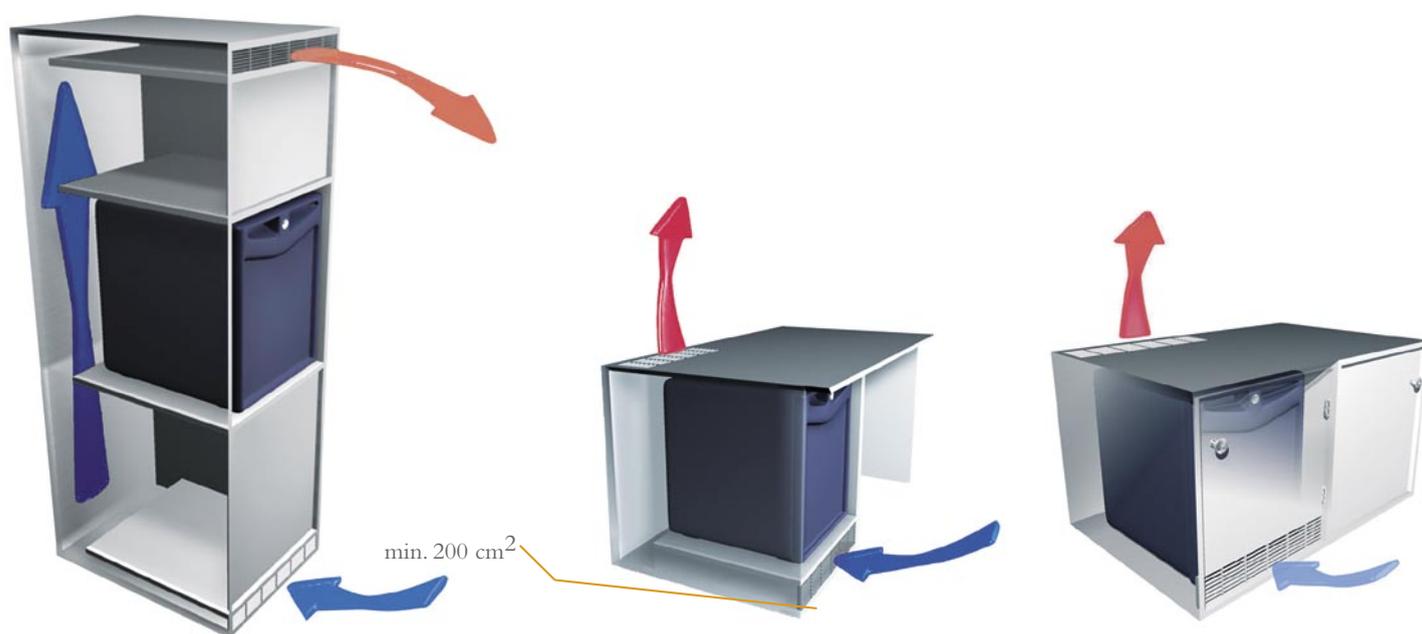

| | | | |
|---------------------------------|------|--|---|
| Capacity (litres) | 60 | Dimensions (H x W x D in mm) | 563 x 486 x 474 |
| - of which refrigerated | 60 | Doorhang convertible left/right | yes |
| - of which unrefrigerated | - | Shelves | 2 (one of them for miniature bottles) |
| Average input (Watt) | 64 | Special features | Available extras: door lock and red-dot door opening control |
| Consumption (kWh/24h) | 1,45 | | |

■ Ventilation

If you consider integrating a Dometic miniBar into the furniture, you should never forget that the cooling unit needs fresh air! These sketches show various ways how to integrate and ventilate a miniBar.

The open cross-section for fresh air supply and extracted air must be at least 200 cm^2 , and the air flow around the cooling unit should be unhindered. If you have any questions, Dometic's experts are happy to answer them.

■ Sufficient ventilation can be accomplished even in furniture that reaches higher up. For cooling purposes, the air needs to flow freely around the cooling unit and exit unhindered at the top.

■ The opening for supply air can also be built into the furniture plinth. Please note that the footprint must not hinder the air from passing the cooling unit freely.

■ Should you want to place the miniBar on the floor panel of your furniture, make sure to use the 40 mm feet (optional accessory). These and an air grille integrated in the furniture door ensure sufficient ventilation. Both miniBar and furniture door can be connected via a swing hinge which compensates for the different pivot points.

The Dometic expert near you.

The World of Dometic

DOMETIC is a leading international supplier of special refrigerators as well as other systems and products designed to meet the specific needs of discerning users for increased comfort away from home. They are developed and manufactured for use in leisure applications such as recreational vehicles and pleasure boats, but Dometic also supplies special refrigeration for medical and hospital applications.

Dometic is organised in two business areas, RV and Pleasure Boat Systems and Special Refrigeration Systems. Dometic has production facilities in 10 countries, its own sales and marketing operations in 35 countries plus 65 distributors globally. The 2002 turnover amounted to approximately 700 million Euro, realised with the help of approximately 4,000 employees.
