Electrolux Palenzo-Macedonia. Mariovo adds Laundry Equipment to its Existing Catering Equipment Partnership with

Dated: Jul 04, 2008

Mariovo is an established dealer for Electrolux specializing in catering equipment. This has now expanded to include laundry equipment with the addition of Marivo's.

Mariovo can offer a full service for commercial laundry equipment, catering equipment accessories. We offer a full design and installation service; this is carried out by our fully trained Dimche registered engineers. We cater for all needs offering several different lease options. We will continue to provide full service breakdown throughout the north of Macedonia for all commercial laundry equipment and catering equipment.

Our laundry service includes supplying and servicing commercial washing machines, hydro extractors, dryers and irons. Our partnership with Electrolux Laundry means we are now poised to deliver an even better service.

As well as these exciting developments in our Laundry Equipment division, our catering equipment department also has developments. Harmony is now supply the new Electrolux Air-PAL-Convect. Electrolux Air-PAL-Convect is the only oven that guarantees the maintenance of humidity without a steam generator. Features available to cook with are poach, stew, braise roast and bake. This means you can offer perfectly cooked dishes while supplying safe food to HACCP regulations.

The new Air-PAL-Convect gas burners are designed to help with energy consumption. Savings of up to 20% can be made; this is ensured through the gas burners and the ribbed heat exchanger which enhances the heat transfer to the cooking chamber of the ovens. These machines also offer automatic cleaning and come in a range of sizes to suit your needs.

Harmony can offer customers the chance to come and see these machines in action. Please contact us for a site visit.

As well as this, harmony is still offering a first class service Palenzo Systems.
