Intelligent Diesel Tank Heating Cable

Engine Heater Information:

Engine Heaters serve a variety of purposes. They are an important part of the engine and help provide trouble-free start-ups. On the following pages you will find a variety of products that will help sustain trouble-free engine start-ups. Engine heaters help save on warm-up time, reducing time spent idling. This helps save on fuel and prolongs battery life. The heaters also reduce engine wear. 90% of engine wear is due to low water jacket temperatures.

Battery Heater Information:

At 0°F your battery has only 40% cranking power. With a battery heater you can increase cranking power to 100%. The battery heaters sustain your battery temperature at 80°F allowing more cranking power. When batteries are placed in an insulated battery box, a thermostat is recommended to sense battery box temperature to prevent overheating the battery. The battery heaters are made of a durable, fire-retardant vinyl cover that resists oils and acids. All standard battery pads and battery wraps come with 6" grounded cord and plug. The pads can boost cranking power as much as 75%.

Silicone Hot Pad Information:

Adhesive hot pad heaters are ideal for oil pans, hydraulic reservoirs, engine blocks, hydraulic cylinders and diesel fuel tanks. Application is made easy with a peel and stick feature. They have an etched foil heating element for optimal heat transfer and extended life. The durable silicone/fiberglass cover resists abrasion. They come fully assembled with a standard 6ft HPN cord and plug.

Engine Heaters

APPLICATIONS	ILLUSTRATION	DESCRIPTION	SLOAN PART NO.
CAT C9,15,16 NON-ACERT, DETROIT DIESEL 60 SERIES PRE-2007		1500 W, 1" NPT HEATER AND 11' CORD	2915 2937
CAT C7 ACERT		1500 W, 44 MM FP 1000 W, 44 MM FP	2920 2932
CAT C15 ACERT		1500 W, 1-3/16" STOR	2907
CAT C11, C13 ACERT		1500 W, 1-5/16" STOR	2905
CATERPILLAR C10, C12		1250 W, 1" NPT	2917
CATERPILLAR 3406E		1500 W, 1" NPT	2908
CATERPILLAR 3406C/E, 3408, DETROIT DIESEL SERIES 50/60 PRE 2007		1000 W, 1" NPT	2944
