

NOWA RHE 720

Liquid smoking stein remover

Ingredients:

Contains anionic and non-ionic surfactans, sodium hypochloride and salts. pH value approx. 14.

Performance:

Effortlessly dissolves residues of tar and resin from smoking, grease and protein stains. Forms a stable, compact foam during use. Has a disinfectant action.

Application notes:

For cleaning all kinds of surfaces that are largely tolerant of alkalis in food-processing premises, e.g. abattoirs, bakeries, food-smoking/curing operations, canteens, etc. In food-curing facilities, can be used on smoking frames, curing bars, etc. but also on tiles, floors, doors, etc. Excellent for use with high and low-pressure equipment. Caution: attacks aluminum, brass and copper.

Usage:

Meter out the dose with high-pressure equipment via the injector or with special foaming equipment. Apply to the surface at a concentration for use of 1 to 10% or 100 to 1000 ml to 10 liters water (depending on degree of soiling) at 0 to 90°C water temperature. Leave to take effect for approx. 10 to 30 minutes. Then rinse off thoroughly with a jet of clean water.

Precautions for use:

Contains < 30% natrium hydroxide. Causes severe burns. Keep out of reach of children. In case of contact with the eyes, rinse immediately with plenty of water and seek medical advice. Take off immediately all contaminated clothing. After contact with the skin, wash immediately with plenty of water. Wear suitable protective clothing, gloves and eye/face protection.

Ecology:

This product is subject to regulations governing the environmental compatibility of washing and cleaning agents and the associated regulations on the biological degradability of the raw materials used.

Comprehensive information on the environmental characteristics of this product is available on request.

Give only completely emptied packaging to special waste disposer.

This product is designated for industrial use.

Product code: GG 70
