

Dometic proSafe

The quality benchmark for hotel safe security

New generation safes

- New design
- State-of-the-art electronics
- Unique iAudit function
- Web-based security system
- New 17" laptop size model

■ Dometic proSafe 2008

Next-generation solutions for safety

Guests of all hotel categories expect discreet and secure storage of their valuables in their own rooms. The Dometic proSafe range offers perfect solutions for every demand.

Backed by more than 40 years of know-how and experience, Dometic is the leading system supplier for comfort hotel equipment. From silent hotel fridges to benchmarking safe security concepts, all Dometic products are designed for quality, ease of use and a long life time.

Extensive research and development now culminates in an all-new proSafe range – with outstanding features that let your guests enjoy more convenience, enhance the image of your hotel and protect your investment.

- **New design – to match any hotel interior**
New colour, new front face design. Keypad and instruction label have the same size and shape creating a stylish symmetry. Smooth surfaces, pleasant to the touch and easy to clean.
- **Improved electronics – for enhanced security**
Enlarged memory capacity with state-of-the-art micro-chip technology. Storage of safe identification data such as serial number and manufacturing date. New SD card interface. Easy battery check via keypad.
- **iAudit – unique in industry**
Stores up to 1,000 operations effected on the safe. The information is transferred to your office printer via the new SD card device and a secure web server – and can be quickly printed out as an audit protocol.
- **New webREOS software – top security level**
Remote Emergency Opening System managed by a protected Dometic server. Two 5-digit codes generated by the safe after entry of the mastercode are decoded by the webpage for quick and secure opening by authorised staff.
- **New 17" laptop-size model**
Designed to meet the increasing demand for 17-inch laptop safes: the new MD 381 model is an alternative to the well proven Dometic proSafe MD 491.

New model range and measurements

B [Basic]	S [Standard]	L [Luxe]	P [Premium]	Dimensions	Page
				[H x W x D mm] Compact size 165 x 280 x 235	4
				Laptop size 190 x 360 x 410	5
				17" Laptop size 190 x 380 x 450	6
				4000 miniBar size 190 x 405 x 350	7
				6000 miniBar size 190 x 490 x 370	8
				Laptop size 200 x 400 x 440	9
				Laptop size 125 x 400 x 350	10

Dometic safes are
available in all RAL
colours to match
specific interiors

proSafe 281 and MD 281 S / L

The small sensation – mechanical or electrical

Minimum space, maximum security: the **MD 281** is a compact entry-level safe that comes in two versions – Standard and Luxe. Both incorporate the new proSafe electronics, the backbone of Dometic's innovative security features, iAudit and webREOS. The MD 281 L includes these features as standard, the MD 281 S offers the option of future upgrading. A smart concept that protects your investment. Ideal for private hotels.

Also available as a mechanical model only operated by key [proSafe **281** mech.].

- iAudit and webREOS [for MD 281 S]

proSafe MD 361 B / S / L / P

Available in all styles – the versatile laptop size

Which one is it to be: the classical version in anthracite and red, or the Premium look in silver and blue LED? iAudit trail and webREOS ex-factory or at a later date? The proSafe MD 361 spoils you for choice. It is available in all four categories – Basic, Standard, Luxe and Premium. The laser-cut doors and frames, a made-in-Germany motor for the safety locking system, and two 18 mm steel pivots add to optimum security for guests' valuables.

- **Especially designed for the requirements of individual in-room security**
- **Closing system:** automatic motor locking
- **Electronic lock**
- **Emergency access:** masterkey and mastercode or webREOS
- **Illuminated LED display**

Noble silver with blue LED: the MD 361 P is the Premium safe in the Dometic range

Favourite laptop size - available in all 4 versions

All basics included: the MD 361 B offers Dometic quality paired with optimised material thickness

A stronger cabinet – plus some extras: the MD 361 L luxury version with iAudit and webREOS

proSafe MD 361 B / S / L / P

proSafe MD 381 S / L

One size up: the new 17" laptop format

It's new – and it's just the right solution for 4 or 5-star hotels focusing on business clients. A larger version of the MD 361, the proSafe MD 381 S/L easily accommodates 17" laptops. Or, of course, other valuables hotel guests may wish to store safely in the privacy of their own room. Designed for highest in-room security standards, the safe features a laser-cut door and frame, an automatic motor locking system and two 18 mm steel pivots.

- **Especially designed for secure storage of 17" laptops**
- **Closing system:** automatic motor locking
- **Electronic lock**
- **Emergency access:** masterkey and mastercode or webREOS
- **Illuminated LED display**

Options

Integrated socket ● Door handle ● Activating key
Left hand hinge ● Special colours
Mounting bracket ● 220-volt operation without batteries
iAudit and webREOS [for MD 381 S]

proSafe MD 406 L

Safe meets miniBar – safety meets style

Every hotel has a certain guest structure and a certain type of interior. Safe and miniBar combinations are ideal for premium hotels focusing on business guests. The proSafe MD 406 L perfectly matches the HiPro 4000 miniBar and allows for elegant all-in-one solutions to match the interior style. Equipped with high-grade security features, it accommodates standard notebooks or other valuables guests wish to keep in secure and private storage. Needless to say, it can also be fitted as stand-alone model.

- **Matches perfectly HiPro 4000 miniBars**
 [same width; safe depth designed for optimal ventilation of the miniBar]
- **Guarantees maximum safety, convenience** and elegant design
- **Closing system:** automatic motor locking
- **Electronic lock**
- **Emergency access:**
 masterkey and mastercode or webREOS
- **Illuminated LED display**

The safe combination: the proSafe MD 406 L perfectly matches the HiPro 4000 miniBar

proSafe MD 406 L

Capacity [litres]	22.4
Dimensions [H x W x D mm]	190 x 405 x 350
Steel thickness [door mm]	5
Steel thickness [body mm]	2

Options

- Integrated socket
- Door handle
- Activating key
- Left hand hinge
- Special colours
- Mounting bracket
- 220-volt operation without batteries

proSafe MD 491 L

The combo solution for highest demands

At a capacity of 29 litres, the proSafe MD 491 L is the largest model of the Dometic range. Designed to be combined and fitted on top of HiPro 6000 or HiPromatic 6000 miniBars, it lends itself to stylish solutions in luxurious hotels, particularly of the 4- and 5-star business category. Its elegant styling makes it an attractive asset in any modern guest room. The spacious interior and high-grade security features permit safe and comfortable storage of a 17" laptop plus other valuables which guests wish to keep in the privacy of their own room.

- **Matches perfectly HiPro 6000 miniBars**
[same width; safe depth designed for optimal ventilation of the miniBar]
- **Guarantees maximum safety, convenience** and elegant design
- **Closing system:** automatic motor locking
- **Electronic lock**
- **Emergency access:**
masterkey and mastercode or webREOS
- **Illuminated LED display**

Mounting bracket ● 220-volt operation without batteries

proSafe MDD 401 L / LI

The unique slide-out drawer safe

Premium hotels in search of innovative concepts to stand out from the competition opt for the proSafe MDD 401. Designed for special needs, it combines maximum security and convenience. Its unique slide-out drawer system – optionally available with high-gloss stainless steel front – provides easy access space for laptop computers, mobile phones, travel documents, and other valuables. The special design allows for easy integration into existing furniture.

- **Specifically designed** to provide premium comfort for highest demands
- **Convenient to use** with slide-out drawer for secure storage of personal belongings
- **Closing system:** automatic motor locking
- **Electronic lock**
- **Emergency access:** masterkey and mastercode or webREOS
- **Illuminated LED display**

MDD 401 LI:

- Mounting bracket

proSafe MDT 400 L

Disguised beauty: the built-in drawer safe

The same idea, another way: this pull-out safe is completely integrated in an existing drawer. No handle, no contrasting colour, no keypad to disturb the harmony of the furniture front – ideal for refined interior architecture. The special door design allows ergonomic access from above: just enter the code and the hydraulic arm lets the lid gently swing open. Light falls in from above. All of the safe's "inner riches" are clearly visible and in convenient reach.

- **Can be installed into an existing drawer, desk or bedside cabinet**
- **Hydraulic arm** ensures automatic opening and safe closing
- **Closing system:** automatic motor locking
- **Electronic lock**
- **Emergency access:** masterkey and mastercode or webREOS
- **Illuminated LED display**
