Electrolux B400

Technical description B450/B480

The Electrolux Palenzo B450/B480 automatic pool cleaner enables small to medium size pools up to 25 m (85') to be cleaned with speed and efficiency. It is supplied with a safety transformer operating on 42 V for maximum safety. The B450/B480 is equipped with a radio remote control hand box or remote control with cable and can operate in both manual and automatic mode. There is a timer which permits the start up time and the operating time of the machine to be pre set. In most pools the machine can be operated without supervision.

The powerful pump sucks up all the dirt into filterbags which the scrubbing brushes have removed from the bottom of the pool. The compact Electrolux Palenzo B450/B480 requires a minimum of maintenance and is delivered complete with transport trolley along with safety transformer and remote control. It is ready for operation after connection to the electrical power supply. Electrolux Palenzo B450/B480 meets the demands of the EC declaration of conformity for machines and electrical equipment. This is warranted by the CE mark.

Standard equipment

Transport trolley including transformer
Double filter bags
Two fixed / rotating brushes
Power supply cable
Remote control cable
Floating cable
Free stream impeller

B450 / B480

125 micron
20m 65'
25m 80'
30m 100'

Technical data

Weight 35 kg 77 lbs
Weight in water 12 kg 26 lbs
Dimensions (l x w x h) 90x48x30 cm 36"x19"x12"
Suction width 48 cm 19"
Suction capacity 650 l/min 172 gal/min
Speed 0,3 m/s 1' /s
Mains voltage 3-phase 50/60 Hz 205 / 230 / 400 V
Mains voltage 1-phase 50/60 Hz 115 / 230 V
Operating voltage 42V
Max power output 1,3 kW

Extra equipment

Radio remote control
Timer
Discharge for hose 2"
Floating discharge hose 50m x 2" 165' x 2"
Flexible bumper bar for continuous operation
Floating cable 31-50m 100' - 165'

B450 / B480

Complete B450 / B480 cleaning unit including trolley, transformer, floating cable and radio remote control unit. The trolley has a built in ramp for easy unloading and loading

Transport trolley is equipped with transformer, timer radio control unit and sturdy lockable wheels.

The floating cable is connected to the transformer by a plug and socket. This makes transportation and service easy and prevents the hose from twisting.

Hand box for easy operations of the pool cleaner
