APEX**

UNDER LICENSE TO
SUPERIOR MANUFACTURING GROUP

THE TEKNOR/NOTRAX® ADVANTAGE

Quality Craftsmanship

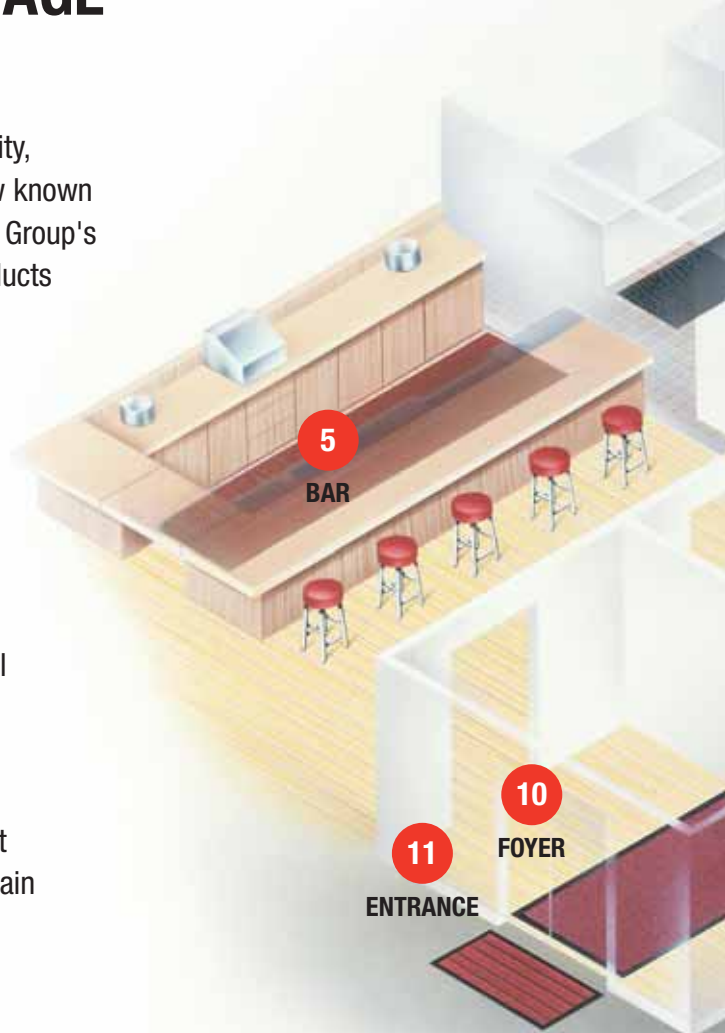

For over 40 years, the name Teknor Apex has meant superior quality, service, and innovative products for the food service industry. Now known as Apex™, this brand is the cornerstone of Superior Manufacturing Group's Food Service Matting Division offering the widest selection of products to a variety of markets including entrance matting, anti-fatigue/safety matting, and food service matting.

Exceeding Expectations

Apex™ offers a complete selection of floor matting options to meet any application requirement, quality expectation, and budget. Continually striving to develop the finest in quality matting, Apex™ has several products that either meet or exceed the National Sanitation Foundation (NSF) standard for grease and oil protection and durability.

Still the Best Choice

As the industry leader, Apex™ will continue to provide the very best products and service to meet the demands of the market and remain your best choice for floor matting products.

MICROSTOP™

is a unique anti-microbial rubber compound made from a specially formulated blend of raw materials that inhibits the growth of microorganisms such as bacteria, and fungi that can cause odor, stains, and product deterioration. MicroStop™ is incorporated directly into the mat during the manufacturing process so it cannot be washed off or wear away over time as anti-microbial treatments can. Apex™ floor matting products with MicroStop™ should be used in conjunction with standard cleaning and disinfecting practices in order to provide a cleaner and healthier work environment.

All MicroStop™ products from Apex™ are manufactured here in the U.S.A. and pass ASTM G-21, the test used by NSF/ANSI for standard 52 as it pertains to the anti-microbial properties of supplemental flooring for use in food preparation, dry storage, and warewashing areas.

Look for the MicroStop™ logo with select Apex™ food service matting products.

CHOOSING THE RIGHT MAT

Your selection should be determined by the optimum combination of comfort, drainage and quality.

COMFORT

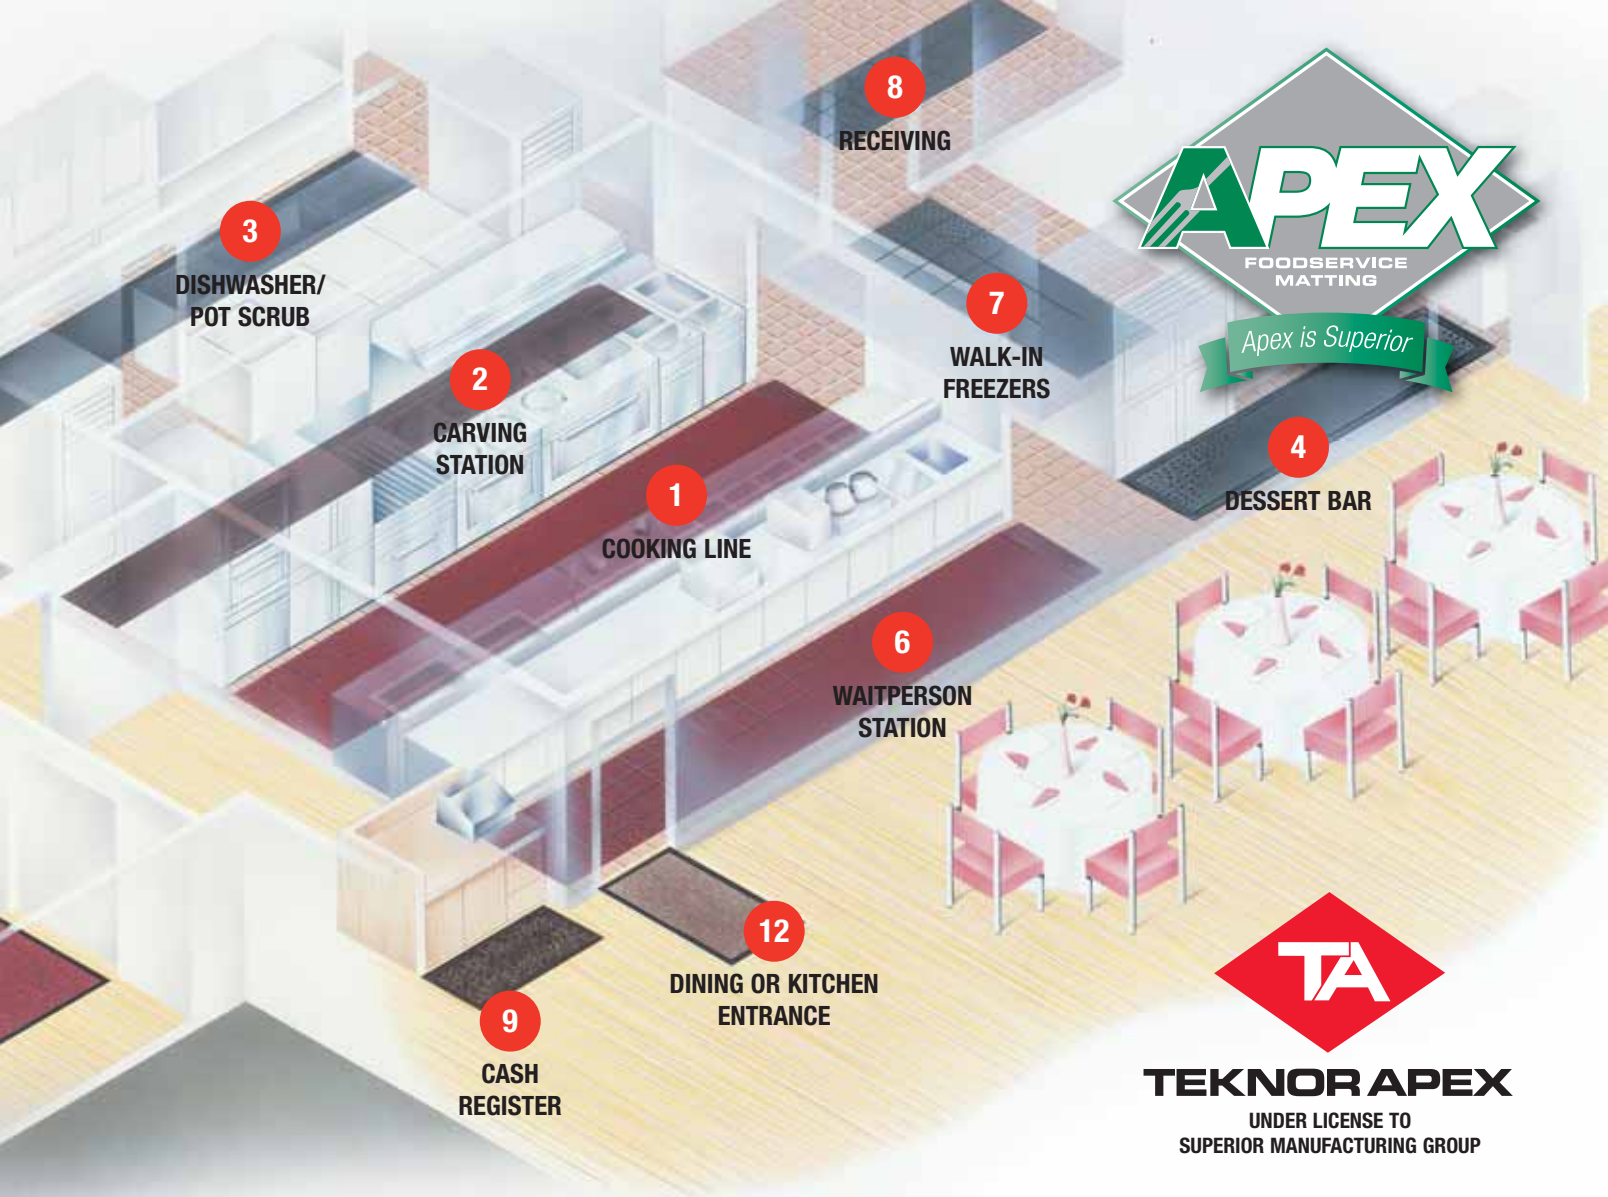

- Generally thicker mats are more comfortable.
- 7/8" mats are best where workers remain for a full shift.
- 1/2" mats are excellent for extended use work stations.
- 3/8" mats are best for traffic areas.

DRAINAGE

- In areas of frequent spills and standing water, use a full-drainage mat.
- In drier work and traffic areas, a mat that offers moderate drainage is adequate.

QUALITY

- Grease and oil break down mats and shorten service life. Certain types of matting are formulated and designed to provide greater protection against grease and oil – the primary contributor to rubber deterioration.

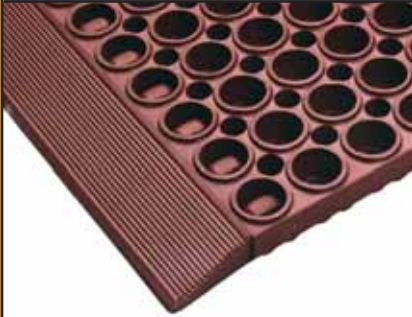

LOCATION AND MAT RECOMMENDATION

LOCATION	RECOMMENDATION	REQUIREMENTS
1 Cooking Line	San EZE®, San EZE II®, Tek Tough®, Optimat®, Ultra Mat Max™, Superflow®, Niru® Versa Runner®	Flexible configurations, exposure to greases & oils, good drainage, anti-fatigue, and anti-slip properties
2 Carving Station	San EZE®, San EZE II®, Tek Tough®, Niru® Versa Runner®, Hercules®, Step Light®, Superflow®	Flexible configurations, some exposure to greases, oils, & water, drainage & comfort
3 Dishwasher/Pot Scrub	Tek Tough®, Tek Tough Jr.®, Ultra Mat®, Challenger®, Competitor®, Superflow®	Flexible configurations, some exposure to greases, oils, & water, drainage & comfort
4 Dessert Bar	Tek Tough Jr.®, Superflow®, Comfort Zone™, Competitor®	Beveled edges for cart traffic, reduced tripping hazard, some exposure to greases, oils & water
5 Bar	Optimat®, Superflow®, Grip True®, Tek Connect®	Drainage, anti-slip, and comfort
6 Waitperson Station	Tek Connect®, Comfort Zone™	Flexible configurations, drainage & comfort
7 Walk-in Freezers	Multi-Mat II®, Grip True®, Deep Freeze Mat™	Withstand cold temperatures, anti-slip surface
8 Receiving	Traction Mat®, Corrugated Runner®, Niru® Versa Runner®	Withstand heavy traffic, anti-slip surface low profile for cart & dolly traffic
9 Cash Register	Superfoam®, Comfort Rest Series, Marble Sof-Tyle™, Foot Saver®	Strong anti-fatigue properties, durable
10 Foyer	Water Master, Atlantic Olefin, Bristol Ridge, Uptown™, Boulevard™, Chevron, Aqua Edge	Good water absorbing qualities
11 Entrance	Ridge Scraper, Finger Scrape, Water Master, BrilliantStep™	Keeps moisture and debris outside, withstands elements, Branding (BrilliantStep™)
12 Dining or Kitchen Entrance	Atlantic Olefin, Bristol Ridge, Uptown™	Aesthetically pleasing and functional

#T11 SAN-EZE II® Our top-of-the-line grease-proof mat

Thickness: 7/8"

- Tested and certified by the National Sanitation Foundation (NSF) for grease and oil protection and durability
- Provides superior ergonomic comfort and traction in wet or greasy areas
- Beveled ramps and corners available to reduce trip hazards
- Modular design with connecting system for longer lengths and custom configurations
- Drainage system removes liquid and debris from worker platform
- Manufactured with MicroStop™ anti-microbial rubber compound that inhibits the growth of bacteria and fungi to provide a cleaner and healthier work environment

Grease-proof comfort #755 NIRU® VERSA RUNNER®

Thickness: 3/8"

- Made from a durable grease-proof 100% Nitrile rubber compound
- Slotted perforations for drainage
- Ribbed underside enhances anti-fatigue value and channels liquid away from the mat
- Low profile for easy cart access
- Manufactured with MicroStop™ anti-microbial rubber compound that inhibits the growth of bacteria and fungi to provide a cleaner and healthier work environment

AVAILABLE COLORS:
Red, Black

Traps dirt/moisture, rubber border & backing #T35 WATER MASTER

Thickness: 3/8"

- 100% polypropylene stain and fade resistant fibers
- Raised waffle pattern facilitates scraping and drying, while the channel design retains moisture and debris
- Raised rubber border on all 4 sides acts as a containment barrier that traps moisture and debris
- 26 ounces of tufted yarn per sq. yard for increased moisture retention
- **Recommended product for "Green Cleaning" applications**
- Molded rubber cleats on the underside of the mat grip underlying surfaces and minimizes mat movement

AVAILABLE COLORS:
Dark Brown, Charcoal,
Slate Blue

- Quick and easy to assemble and store
- Middle section will transport a 44 gallon container
- Removable handles (folds up for easy handling)
- Bolt-on casters

DIMENSIONS	WGT	MODEL NO.
44" x 25" x 30"	50	112-733

MAT REPLACEMENT GUARANTEE

Mats are guaranteed against defects in material, workmanship, and breakdown due to grease and oil exposure. Matting subjected to grease must be cleaned on a regular basis with hot water and a detergent that contains neither bleach, nor chlorine or butyl.

Factory liability is limited to the remaining warranty from date of purchase. Warranty claims must be authorized for return and shipped prepaid for inspection and evaluation. Replacement matting is prorated to the equivalent of the remaining period.

Notes – improper cleaning, handling, folding, or use of commercial dishwasher for cleaning mats will shorten expected useful life. This is not covered under replacement guarantee.

DO NOT use BLEACH or any BUTYL-BASED DEGREASER regardless of where the mat is used. Usage of these chemicals will void the product warranty.

1. Payment terms are net 30 days.
2. BROKEN CARTON CHARGE: \$5.00; HOSE CARTONS: \$12.00.
3. MINIMUM ORDER: Standard sizes, \$100.00 (net invoice); custom sizes, no minimum. Orders under minimum will be processed plus \$25.00 (net) handling charge.
4. RETURN MERCHANDISE: Request to return merchandise must be approved by the factory. Unauthorized returns will be refused. Authorized merchandise returns are subject to a 20% restocking fee, with a \$25 minimum charge.
5. DROP SHIPMENTS: As a favor for dealers, stock merchandise will be drop shipped subject to a \$25.00 drop shipment charge.
6. DAMAGED CLAIMS: Title to merchandise passes at the time of pick-up by the carrier. Loss or damage claims must be filed with the carrier.
7. Orders are accepted at the prices in effect at the time of shipment. Prices are subject to change without notice.
8. Because of the unique characteristic of rubber-based products, the specifications listed are nominal measurements.
9. Stated warranty relates only to manufacturing defects and protection from grease and oil exposure under normal operating conditions. Improper cleaning and material handling (folding, tearing, etc.) may shorten the expected useful life of rubber matting and is not subject to warranty claim. Never fold rubber matting. The use of commercial dishwasher is not recommended for cleaning floor matting. Intense hot water for extended period of time in a dishwasher can contribute to rubber deterioration. In heavy grease areas, daily cleaning is recommended.
10. Superior Manufacturing Group guarantees the bond on all NoTrax® Apex™ laminated mats that incorporate the UniFusion™ process for the lifetime of the mat. The bond is guaranteed under normal conditions of use in reasonable dry application environments, or a full refund or replacement mat (based on the manufacturer's discretion) will be issued. Proof of purchase is required for all refunds or replacements. This lifetime warranty protects against de-lamination or bond failure, and does not cover issues unrelated to the bond such as wear or foam tears.

MATTING ICONS

Drainage:

Open construction allows for moisture to pass through, providing secure footing in a wet environment.

Anti-Slip:

Matting designed to provide added traction through aggressive surface patterns and textures.

Welding:

Made of durable rubber compounds, these mats can be used in areas where welding takes place.

Anti-Static:

Formulated to absorb static electricity.

Outdoor Use: Heavy-duty construction designed to act as a first line of defense against tracked-in dirt by scraping, soil and moisture from shoes.

Custom:

Mats available in custom sizes and/or lengths.

Food Service:

Matting suitable for use in kitchens, bars and other food service areas where durability, grease resistance and drainage are a priority.

Ergonomic/Anti-Fatigue:

Matting that alleviates foot pressure, stimulates blood circulation and helps reduce stress on the lower back, leg joints and major muscle groups.

Food Processing:

Matting suitable for use in food processing plants/areas where exposure to animal fats, greases, and oils are common.
