For All Pools & Spas

- Easy to use & maneuver
- Lightweight
- Rechargeable battery lasts 1 hour
- No messy hoses or cords
- Works with all telescopic poles
- Built-in reusable large filter bag
- For all types of pools & spas

# Introducing EP50a

EP50a is the world's first **battery-operated** handheld pool cleaner for your **entire pool or spa**.

EP50a connects to any telescopic pole\* for deep cleaning. This powerful device quickly cleans and removes debris such as hair, sand, pebbles and leaves from all areas in the pool or spa.

\*Pole not included

## Powerful, yet easy to use

The powerful EP50a does not need to connect to your pool's filtration system! EP50a has its own internal vacuum motor which makes it stronger than any other vacuum system.

It can operate for up to one hour on its **rechargeable battery** and works in any type of pool or spa. The EP50a contains its own easy-to-clean, reusable, large-capacity filter bag.

# CLEAN YOUR ENTIRE POOL IN MINUTES SPOT CLEAN IN SECONDS!

## A spot cleaner too

Remove the detachable vacuum head for spot cleaning and hard to reach places and corners.

## No hoses or priming

You will love the fact that EP50a requires **no bulky hoses** or electrical cords! The

EP50a is environmentally friendly. It requires **no back-washing** or refilling of your pool or spa. Therefore, EP50a saves you money on water and chemical usage.

## For all pools & spas

EP50a contains everything you need in order to clean all gunite, vinyl and fiberglass pools and spas. EP50a is designed for both in-ground and above-ground pools. Both wheel and brush attachments are provided.

Brushes for vinyl & fiberglass surfaces ▲

Both wheels & brush attachments are included with the Pool Buster

▼ Wheels for gunite pools

## Compact & Powerful

Do not be fooled by its compact design - EP50a is powerful enough to clean your entire pool.

**No hoses!**
