IdealHeat Heating Appliances Pamper You Wherever You Are

A pleasant warmth experience is inherently sought by everyone. **Electrolux Macedonia** introduces an innovative line of heating appliances generating natural warmth experience while ensuring safety and efficiency.

Electrolux Macedonia products employ unique alloys and advanced technology, replacing traditional electric heating elements, providing customers with a natural warmth experience. Surfaces are warmed to just the right temperature - ensuring most pleasant warmth when used or stepped on.

Ideal Heat's heating appliances assure the following benefits

High uniformity of surface temperature - even heating spread & wide range of temperatures

In addition:

Safe – campul magnetic extrem de jos asigura cele mai mici radiatii posibile

Innovative – o combinatie perfecta de tehnologii inovative si de proiectare care asigura calitate si confort

Economic – consum mic de energie electrica asigurand economie a costurilor de pana la 30%

Environmental friendly appliance – sistem fabricat din produse ecologice

Long-lasting for years

Standards- compatible with highest standards
